User Guide (v1.0)

COB inspection light 240lm

Please read the following instructions carefully and keep for future reference. Correct usage and maintenance are essential to ensure maximum battery life and performance.

Box Contents:

- 1 x Inspection light
- 1 x USB-C charging cable
- 1 x Instruction manual

CHARGING:

- 1 Switch the light off before charging
- 2 Plug the USB cable into the USB-C input and connect to an appropriate adapter/power source
- 3 The battery indicator will flash the corresponding battery level when charging
When the battery has finished charging all lights will be solid blue
- 4 Charging time is approximately 4 hours

MAINTENANCE:

- 1 A full charge of at least 4 hours prior to initial use is recommended
- 2 Always recharge after use
- 3 It is advisable to charge the battery if not used for 3 months

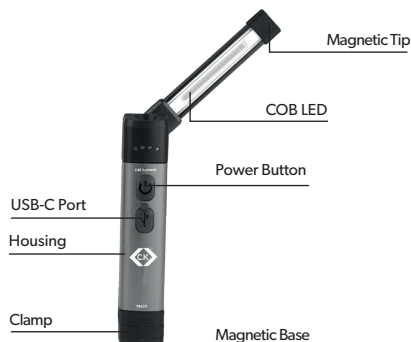

CAUTION:

- 1 Never attempt to disassemble the inspection light
- 2 Never shine the inspection light directly in someone's eyes
- 3 Do not over rotate the inspection light joint. Maximum rotation 180°
